Sprint 3 Report

Product Name: FairShare
Team Name: FairShare Team
Sprint Completion Date: 3/5/19

Actions to STOP doing
- The team should stop working on local branches and start working from the shared repository.
- Coding alone
- Stop meeting late for our online meetings
- Stop canceling meetings or pushing back meetings
- Stop coming up with new features for the app while we are still in the middle of a sprint.

Actions to START doing
- The team should start meeting more (preferably in person) so that we can keep each other accountable, and know where everyone is at task wise.
- Meeting more often
- Communicating with each other more often, and not only communicating are our meetings.
- Asking questions more often when we are stuck or confused about something
- Responding to questions asked in the messaging app
- Commiting work to github instead of working on local machine
- The team should start committing more to the work put in so that we can finish all our tasks at the end of the sprint.
- The team should start coding together more so that we can bounce off ideas with each other and ask for help
- The team should start pushing code to the repository. So we can keep track of everyone's progress.
- Doing peer reviews
- Commenting code and having a style sheet
- Start meeting before our TA meeting
- Focusing on the IOS

Actions to KEEP doing
- The team should keep meeting up with Harland, the product owner so that he can track our progress and give helpful insight on the app.
- Meeting online if we can't meet in person
- Updating the scrum board at every meeting

- And updating the burn up chart daily
- Playing planning poker

Work completed/not completed
- Completed:
  - **User Story 1:** --As a user I want to be able to charge someone, so that I can get my money back.
    - everything
  - **User Story 4:** --As a user I want to be able to split bills unevenly, because not everyone orders the same thing.
    - Everything
  - **User Story 2:** --As a user I want to be able to do in-app payments, so that it will be convenient to me.
    - Everything
  - **User Story 3:** --As a user I want to see a history of all my payments/charges, so that I can verify if I paid someone yet
    - **Task 1:** -- Currently have a paid button that marks the payment as paid move paid payments to a diff db table(3hr)
    - **Task 2:** -- No in app payments yet, but have function that marks it as paid after our payment returns true(2hrs)

- Not completed:
  - **User Story 3:** --As a user I want to see a history of all my payments/charges, so that I can verify if I paid someone yet
    - **Task 3:** -- Create a new page on the app to display the payments(10hrs)
    - **Task 4:** -- UI design (5hrs)

Work completion rate
Total number of user stories completed: 3
Total number of estimated ideal work hours:
      2 hours/day * 5 days/week * 2 weeks * 5 team members = 100 hours
Total number of days during prior sprint: 14
